**RE: SWWD Watershed Management Plan 10 Year Update, 60 Day Review**

Dear Agency Representative:

Consistent with MN Statute 103B and MN Rule 8410, SWWD has prepared a 10 year Watershed Management Plan (WMP) update. The update was prepared following request for input from your agency and in cooperation with the District's Citizen Advisory Committee and Technical Advisory Committee. SWWD respectfully submits the WMP for 60 day review. Comments are due by June 17, 2016.

The WMP is deliberately streamlined from previous versions and is intended to serve a wide audience by providing broad, easy to understand overviews of Issues facing the District and programs intended to address those issues while also directing the readers to more detailed information. The Plan also makes use of several web-based tools. Readers will see references to the District's Web Viewer, Water Quality database, Story Mapping, and Electronic Library all of which are housed on the recently updated SWWD website.

We strongly encourage you to complete your review using an electronic copy to fully access available information. The plan is available at <http://www.swwdmn.org/resources/watershed-management-plan/>. A paper copy and/or CD of the plan will be mailed to agencies requiring them as specified on the Metro Plan Review Roster. Additionally, paper and CD copies will be distributed as requested.

If you have any questions or need additional information, please contact me at 651/714-3714 or [jloomis@ci.woodbury.mn.us](mailto:jloomis@ci.woodbury.mn.us).

Sincerely,  
South Washington Watershed District
