# Table of Contents

<b>Executive Summary</b> .....	<b>viii</b>
<b>Plan Context</b> .....	<b>viii</b>
<b>Plan Implementation</b> .....	<b>viii</b>
Underpinnings .....	viii
Administration .....	x
<b>Plan Standards and Guidance</b> .....	<b>x</b>
<b>1. Introduction</b> .....	<b>1</b>
<b>1.1 District Overview</b> .....	<b>1</b>
1.1.1 Jurisdictional Area and Member Cities.....	1
1.1.2 Board of Managers.....	2
<b>1.2 Plan Purpose</b> .....	<b>2</b>
<b>1.3 Plan Structure and Function</b> .....	<b>4</b>
<b>1.4 Previous Plan Success</b> .....	<b>5</b>
<b>2. Implementation and Work Plan</b> .....	<b>9</b>
<b>2.1 Overview</b> .....	<b>9</b>
<b>2.2 Annual Work Plan</b> .....	<b>9</b>
2.2.1 Overview .....	9
2.2.2 Annual Work Plan and Budget .....	10
2.2.3 Implementation and Plan Amendments.....	10
<b>2.3 Coordinated Capital Improvement Plan</b> .....	<b>10</b>
<b>2.4 Long Range Work Plan</b> .....	<b>13</b>
<b>2.5 Relationship of Implementation Elements</b> .....	<b>15</b>
<b>3. Assessment of Issues</b> .....	<b>21</b>
<b>3.1 Priority District-wide Issues</b> .....	<b>21</b>
Development of Uniform Design Standards .....	21
Flood Storage and Conveyance.....	22
Lakes and Wetlands.....	22
Groundwater .....	23
Natural Resources, Recreation and Open Space .....	24
Erosion and Sediment Control.....	25
Education .....	26

<b>3.2 Priority Subwatershed Issues</b> .....	<b>26</b>
3.2.1 Northern Subwatershed .....	27
3.2.1.1 <i>Missing Links for Greenway Corridor</i> .....	27
3.2.1.2 <i>Potential Flooding Risks and Flood Damage Reduction</i> .....	27
3.2.1.3 <i>Powers Lake Quality</i> .....	29
3.2.1.4 <i>Flood Storage Areas and Central Draw Overflow</i> .....	29
3.2.1.5 <i>Special Well Construction Area</i> .....	30
3.2.2 East Ravine Subwatershed .....	30
3.2.2.1 <i>303(d) Listing for Ravine</i> .....	30
3.2.2.2 <i>Erosion Control for Ravine</i> .....	31
3.2.2.3 <i>Ravine Lake Water Levels</i> .....	31
3.2.2.4 <i>Parkway Development</i> .....	31
3.2.2.5 <i>Habitat Restoration Areas</i> .....	31
3.2.2.6 <i>Habitat Protection Areas</i> .....	32
3.2.2.7 <i>Central Draw Overflow Implementation</i> .....	32
3.2.2.8 <i>Groundwater Influences to Ravine Lake</i> .....	33
3.2.3 Central Ravine Subwatershed .....	33
3.2.3.1 <i>Subwatershed Boundary Flows</i> .....	33
3.2.4 West Draw Subwatershed .....	33
3.2.4.1 <i>Inter-community Flows</i> .....	33
3.2.4.2 <i>Hamlet Park Pond</i> .....	34
3.2.4.3 <i>Hydrologic and Hydraulic Investigation</i> .....	34
3.2.5 East Mississippi Subwatershed .....	34
3.2.5.1 <i>Remnant Prairie Management</i> .....	34
3.2.5.2 <i>Flooding and Erosion</i> .....	35
3.2.5.3 <i>Groundwater Quality</i> .....	35
3.2.5.4 <i>Newport Ravine</i> .....	35
3.2.5.5 <i>Clear Channel Pond</i> .....	36
3.2.5.6 <i>Grey Cloud Island Slough</i> .....	36
3.2.6 Trout Brook Subwatershed .....	36
3.2.6.1 <i>Management Plan Implementation</i> .....	37
3.2.7 O’Connors Creek Subwatershed .....	37
3.2.7.1 <i>Management Plan Implementation</i> .....	37
3.2.8 St. Croix Subwatershed .....	37
3.2.8.1 <i>Bluffline/streambank Erosion</i> .....	37
3.2.8.2 <i>St. Croix River Water Quality</i> .....	37
3.2.9 Lower Mississippi Subwatershed .....	38
3.2.9.1 <i>Bluffline/streambank Erosion</i> .....	38
3.2.9.2 <i>Mississippi River Turbidity</i> .....	38

<b>4. Review of Relevant Data</b> .....	<b>41</b>
<b>Precipitation</b> .....	41
Past Analysis .....	41
Pattern Classification .....	42
Washoff/Buildup.....	43
<b>4.2 Runoff Quantity and Quality</b> .....	44
4.2.1 Past Analysis .....	44
4.2.2 Monitored Flows .....	44
4.2.2.1 Overview.....	44
4.2.2.2 Discharge Recurrence Interval.....	44
4.2.2.3 Annual Runoff Coefficient.....	45
4.2.3 Runoff Quality .....	46
4.2.3.1 Overview of Data.....	46
4.2.3.2 Flow Weighted Mean Concentration.....	47
4.2.3.3 Loads .....	47
<b>4.3 Lakes</b> .....	50
4.3.1 Past Analysis .....	50
4.3.2 Overview of District Lakes and Analysis .....	51
4.3.3 Armstrong Lake .....	56
4.3.3.1 Lake Description.....	56
4.3.3.2 Water Levels.....	56
4.3.3.3 Water Quality.....	56
4.3.4 Wilmes Lake .....	57
4.3.4.1 Lake Description.....	57
4.3.4.2 Water Levels.....	57
4.3.4.3 Water Quality.....	57
4.3.5 Powers Lake .....	58
4.3.5.1 Lake Description.....	58
4.3.5.2 Water Levels.....	58
4.3.5.3 Water Quality.....	59
4.3.6 Markgrafs Lake .....	60
4.3.6.1 Lake Description.....	60
4.3.6.2 Water Levels.....	60
4.3.6.3 Water Quality.....	60
4.3.7 Colby Lake .....	61
4.3.7.1 Lake Description.....	61
4.3.7.2 Water Levels.....	61
4.3.7.3 Water Quality.....	61
4.3.8 Gables Lake.....	61
4.3.9 La Lake.....	62
4.3.9.1 Lake Description.....	62

4.3.9.2	Water Levels.....	62
4.3.9.3	Water Quality.....	62
4.3.10	Ravine Lake.....	63
4.3.10.1	Lake Description.....	63
4.3.10.2	Water Levels.....	63
4.3.10.3	Water Quality.....	64
<b>4.4</b>	<b>Groundwater and Infiltration .....</b>	<b>64</b>
4.4.1	Past Analysis .....	64
4.4.2	Monitored Groundwater Levels .....	65
<b>5.</b>	<b>Goals, Policies, and Programs.....</b>	<b>71</b>
<b>5.1</b>	<b>Major Programs Affecting the District.....</b>	<b>71</b>
5.1.1	Impaired Waters Program.....	71
5.1.2	National Pollutant Discharges Elimination System Program .....	73
5.1.3	Wetland Conservation Act .....	74
5.1.4	Surface Water Management Planning.....	75
5.1.5	Groundwater Planning .....	75
5.1.6	Matrix of Responsibilities.....	77
<b>5.2</b>	<b>Principles, Goals and Policies .....</b>	<b>77</b>
5.2.1	Guiding Principals.....	77
5.2.2	Goals and Policies.....	78
5.2.3	Measures of Success .....	87
5.2.3.1	Policy Implementation .....	88
5.2.3.2	Collaborative Efforts .....	88
5.2.3.3	Project Activity .....	89
<b>5.3</b>	<b>District Programs .....</b>	<b>89</b>
5.3.1	Monitoring and Data Analysis .....	89
5.3.2	Regional Assessment Locations .....	89
5.3.3	Groundwater Management.....	90
5.3.4	Education and Outreach .....	90
5.3.5	Natural Resources Conservation.....	91
5.3.6	Erosion and Sediment Control.....	91
5.3.7	Watershed Source Control.....	92
5.3.8	Permitting and Development Review .....	92
5.3.9	Advisory Committees .....	92
<b>6</b>	<b>District Standards and Recommended Methods.....</b>	<b>95</b>
<b>6.1</b>	<b>Approach.....</b>	<b>95</b>
<b>6.2</b>	<b>Guidance Documents .....</b>	<b>95</b>
<b>6.3</b>	<b>Implementation of Standards, Applicability, Credits and Trading .....</b>	<b>96</b>
6.3.1	Implementation .....	96
6.3.2	Applicability .....	96

6.3.3 Credits and Trading.....	98
<b>6.4 Wetland Classification and Management .....</b>	<b>98</b>
6.4.1 Overview .....	98
6.4.2 Classification and General Process.....	98
6.4.3 Wetland Protection Standards .....	99
6.4.4 Intended Use.....	102
<b>6.5 Receiving Water Classification and Management .....</b>	<b>102</b>
6.5.1 Background.....	102
6.5.2 Classification Process .....	103
6.5.3 Management Standards and Implications .....	104
6.5.4 Intended Use.....	104
<b>6.6 Requirements for Land Development or Land Disturbance .....</b>	<b>107</b>
6.6.1 Overview .....	107
6.6.2 Stormwater Peak Runoff Rate .....	107
6.6.3 Stormwater Runoff Volume.....	108
6.6.4 Allowable Total Phosphorus Loads .....	108
6.6.5 Best Management Practice Implementation .....	109
6.6.6 Intended Use.....	110
<b>6.7 Critical Storage Areas .....</b>	<b>110</b>
6.7.1 Overview .....	110
6.7.2 Control of Critical Storage Areas .....	110
6.7.3 Intended Use.....	110
<b>6.8 Regional Assessment Locations.....</b>	<b>110</b>
6.8.1 Requirement and Rationale .....	110
6.8.2 Intended Use.....	115
<b>6.9 Utilization of Infiltration .....</b>	<b>115</b>
6.9.1 Overview .....	115
6.9.2 On-site Infiltration.....	115
6.9.3 Regional Infiltration .....	116
6.9.4 Intended Use.....	117
<b>6.10 Open Channel Stability.....</b>	<b>118</b>
6.10.1 Overview... ..	118
6.10.2 Requirement .....	118
6.10.3 Intended Use.....	118
<b>6.11 Bluff and Ravine Buffers.....</b>	<b>119</b>
<b>7 Watershed District Administration.....</b>	<b>126</b>
<b>7.1 Plan Implementation Procedure .....</b>	<b>126</b>
7.1.1 Overview .....	126
7.1.2 Role of Guidance Documents.....	126
7.1.2.1 <i>General Intent</i> .....	126

7.1.2.2 <i>Criteria and Incorporation Process</i> .....	127
<b>7.2 Plan Amendment Procedures</b> .....	127
7.2.1 General Approach .....	127
7.2.2 Amendments to Plan .....	128
7.2.2.1 <i>Criteria and Format</i> .....	128
7.2.2.2 <i>Minor Plan Amendments</i> .....	129
7.2.2.3 <i>General Plan Amendments</i> .....	131
<b>7.3 Local Government Units</b> .....	131
7.3.1 Local Water Management Plans .....	131
7.3.1.1 <i>General Requirements</i> .....	131
7.3.1.2 <i>Specific Requirements</i> .....	132
7.3.2 Regulatory Controls and Enforcement.....	132
7.3.3 Financial Impact.....	133
<b>7.4 Financing and Funding</b> .....	134
7.4.1 Funding Approach and Rationale .....	134
7.4.2 Funding Process.....	137
7.4.2.1 <i>Overview</i> .....	137
7.4.2.2 <i>Stormwater Utility Fee</i> .....	137
7.4.2.3 <i>Financing and Project Categorization</i> .....	139
<b>7.5 Administration of Legal Boundary</b> .....	141
<b>8 Watershed Description</b> .....	<b>145</b>
<b>8.1 Climate</b> .....	145
<b>8.2 Mississippi River Basin</b> .....	145
8.2.1 Topography and Drainage .....	146
8.2.2 Soils.....	147
8.2.3 Geology.....	148
8.2.3.1 Bedrock Geology.....	148
8.2.3.2 Surficial Geology.....	148
8.2.4 Water Resources.....	149
8.2.4.1 Surface Waters.....	149
8.2.4.2 Groundwater.....	149
8.2.5 Unique and Natural Features.....	150
8.2.5.1 Overview.....	150
8.2.5.2 Wildlife and Recreation Areas.....	150
8.2.6 Land Use and Cover .....	151
8.2.7 Sources of Pollution.....	151
<b>8.3 St. Croix River Basin</b> .....	152
8.3.1 Topography and Drainage .....	152
8.3.2 Soils.....	153

8.3.3	Geology.....	153
8.3.4	Water Resources.....	154
	8.3.4.1 Surface Waters.....	154
	8.3.4.2 Groundwater.....	155
8.3.5	Unique and Natural Features.....	155
8.3.6	Land Use and Cover .....	156
8.3.7	Sources of Pollution.....	157

**Glossary and Acronyms ..... 164**

**List of Maps**

1.1	SWWD jurisdictional boundary and member cities .....	7
1.2	2020 MUSA and related growth areas .....	8
3.1	Subwatershed Boundaries.....	39
3.2	Central Draw Overflow Schematic .....	40
4.1	Precipitation gauge sites and spatial coverage.....	66
4.2	Water monitoring locations.....	67
4.3	Armstrong Lake: drainage area .....	68
4.4	Wilmes Lake: drainage area and bathymetry .....	69
4.5	Powers Lake: drainage area and bathymetry .....	70
4.6	Markgrafs Lake: drainage area and bathymetry .....	71
4.7	Colby Lake: drainage area and bathymetry .....	72
4.8	La Lake: drainage area and bathymetry .....	73
4.9	Ravine Lake: drainage area and bathymetry .....	74
6.1	Inventoried wetlands and designated classifications .....	120
6.2	Estimated annual infiltration rates (inches) for typical climatic conditions ...	121
6.3	Regional assessment locations .....	122
6.4	On-site infiltration potential.....	123
6.5	Regional infiltration potential .....	124
7.1	Management areas for SWWD stormwater utility fee collection.....	143
8.1	District Topography .....	158
8.2	Hydrologic Soil Groups.....	159
8.3	General Soil Types .....	160
8.4	Bedrock Geology .....	161
8.5	Surficial Geology.....	162
8.6	Surface Water Resources.....	163
8.7	Impaired Reaches & Stressors Causing Impairment .....	164
8.8	Sensitivity to Ground Water Contamination .....	165
8.9	Natural Features .....	166
8.10	2000 Generalized Land Use .....	167
8.11	Projected Generalized Land Use.....	168
8.12	Land Cover .....	169

8.13 Potential Pollution Sources ..... 170

**List of Tables**

ES.1 SWWD management areas and related goals. (from Section 5.2)

1.1 Area of member cities within the watershed .....1

1.2 Priority projects proposed in the SWWD 1997 WMP .....6

2.1 Long range work plan..... 16

2.2 South Washington Subwatershed Capital Improvement Projects in Long Range Work Plan ..... 11

2.3 East Mississippi Subwatershed Capital Improvement Projects in Long Range Work Plan..... 11

2.4 Lower St. Croix Subwatershed Capital Improvement Projects in Long Range Work Plan..... 11

3.1 Option comparison for HWL reductions at Wilmes Lake for the standard design storm under current land use conditions ..... 28

4.1 Frequency distribution of historic annual rainfall depth near the SWWD ..... 43

4.2 Stream and runoff monitoring locations and history within the SWWD..... 44

4.3 Recurrence intervals for mean daily discharge (cfs) at monitoring stations.. 45

4.4 Annual runoff coefficients at selected monitoring stations ..... 46

4.5 Characteristics of selected water quality parameters at MS1 ..... 47

4.6 Characteristics of selected water quality parameters at MS2 ..... 47

4.7 Characteristics of selected water quality parameters at 100<sup>th</sup> Street..... 47

4.8 Lake trophic state and general characteristics..... 51

4.9 Summary of key information for SWWD lakes ..... 53

5.1 Impaired waters within the SWWD based on MPCA 303(d) list..... 72

5.2 Matrix of government responsibilities ..... 94

5.3 Annual evaluation tool for District activities ..... 95

6.1 Summary of standards and applicability to projects ..... 97

6.2 Wetland classification ..... 99

6.3 Protection standards for wetland management classes ..... 101

6.4 Receiving water classification ..... 105

6.5 Regional assessment locations ..... 112

7.1 Status of local controls compared to Plan requirements ..... 135

7.2 Distribution of funding for projects ..... 140

**List of Figures**

1.1 Conceptual relationship of tools and activities of the SWWD .....5

3.1 SWWD conceptual approach for solving flooding issues..... 30

4.1 Stochastically estimated total phosphorus daily loads ..... 49

4.2 Four year rolling average of mean total phosphorus (TP) concentration ..... 54

4.3 Four year rolling average of mean Secchi depth (water clarity)..... 54

4.4 Notched box plot summarizing total phosphorus data for SWWD lakes..... 55

6.1	Monitored and desired trophic state index values for key lakes .....	106
6.2	Regional infiltration suitability classification .....	117
7.1	Financing alternatives within metropolitan Watershed Districts.....	142
8.1	Mean monthly temperature and precipitation at station 213568.....	146

**List of Technical Appendices \***

A	History of District
B	Literature Review and Bibliography
C	Stakeholder Involvement Process
D	Hydrologic Input Parameters
E	Critical Storage Maps
F	Subwatershed Drainage Map
G	Precipitation Data
H	Mean Daily Flow Data (Box Plots)
I	Stream Quality Concentration Data (Box Plots)
J	Stream Quality Concentration Tabular Data
K	Lake Data (Box Plots)
L	Groundwater Data (Box Plots)
M	Decision Trees for Selecting Best Management Practices
